# THE FUTURE OF VENUE ENTERTAINMENT

The evening begins with anticipating the next move but ends up drawing you out of your seat. We create an alternate reality through character development, music selection, props, utilization of venue, and world class dance routines. We break the ice and energize the crowd, so they can let loose.

# WHAT DO WE DO?

## HOW DO WE CUSTOMIZE OUR EVENTS?

We want your clients to feel immersed in the performance, rather than be outsiders looking in.

We use tables instead of stages, and your clients' are the center of the performance. Our set tailors the needs of your party and the layout of your venue. We will use all suitable props and space in the venue from bars, tables and platforms to walls, ceilings, and ledges if permitted.

Collaborating with venues determines a theme of the night, length of each set, and time intervals between sets. It's your party, tell us how you want it.
